

ABOUT LOOP

Built from lived experience. Rooted in community. Committed to creating pathways forward.

OUR STORY

LOOP was created from lived experience and a firsthand understanding of the challenges youth, families, and justice impacted individuals face when navigating complex systems. This understanding shaped a vision for an organization that provides meaningful support, creates opportunities, and strengthens individuals, families, and communities.

LOOP turns community needs into action and pathways forward.

OUR APPROACH

We believe lasting change starts with listening to communities and understanding their needs. LOOP centers dignity, connection, and opportunity in our work, partnering with individuals, families and communities to create solutions that promote stability and long term growth.

OUR VALUES

COMMUNITY

We believe strong communities are built through connection, collaboration, and collective care.

ACCESS

We work to reduce barriers and ensure resources, education, and opportunities are within reach for the communities we serve.

EMPOWERMENT

We believe people should have the tools, knowledge, and support to shape their own future.
